Subject: Re: Relocation

Homer,

Please call so we can talk about this tomorrow. I will be here all day. If you would rather that I call you, that is fine, just e-mail me a number and a good time.

We are just getting started with our school, so I want to give you a realiisting impression of what we are doing, and talk to you about how you might fit in. This is not a work from 8 to 5, take your money and do what you like type of thing. People are putting their whole hearts and resources into it. Now, it seems that you life your life that way also, so it is imporant that we can be agreed and walk together.

We do have a place for you to relocate to.

Please stay in touch.

```

In addition, I recevied notice from the board of directors that they would like me to relocate in July, this relocation due to my wife's petitioning for a position on the board and the present board not wishing for someone who knows what the responsibilities of a 501(c)3 board are with the Old Bedford Village's board as configured. Thus, with three events occurring today, all three dictating relocation, I would like a little clarification on where the acronym SEE will be. I did sell property in May, and by the time indebtedness was resolved, ended up with a very small amount of money. Therefore, I am free to relocate, with the necessity of relocating, and with the direction uncertain.
